

REAL FEDERACIÓN ESPAÑOLA DE FÚTBOL

**Clarifications requested in the process of receiving offers for the contracting of certain audiovisual broadcasting rights of the Primera Division RFEF for the territory of Spain, Europe and International. Rules published by the RFEF on July 13, 2021.**

1.- Change of the competition model (point 3.3.1 of the Spain / Europe Rules and 3.2.1. of the conditions in the international rules): provide additional explanation on cases of change of competition model.

The possible change in the competition model has already been delimited in the tender itself by referring to a potential grouping into subgroups or the introduction of playoffs in certain groups of clubs, either at the top or bottom of the classification table. These changes would operate, just as it has been done in the 2020-2021 season, when a force majeure situation forces to do so, and it is necessary to finish or attempt to finish the competition. Otherwise, it would require the agreement of the final bidder.

2. End of the competition (point 3.3.3 of the Spain / Europe Rules and 3.2.3 of the international Rules): provide explanation about these additional matches.

In Sections 3.3.3 and 3.2 3 it is not defined nor included any forecast of possible additional matches. It is only defined that in cases of force majeure the competition system can be modified with the sole purpose of trying to end the competition. In no case would it be additional matches, but rather a new competition format where the maximum number of matches possible will be played having less time to play them due to force majeure that would prevent or make it impossible or difficult to play some of the matches.

3.-Regarding section 8.5 of the Rules for the territory of Spain, economic solvency requirements, it is mentioned that the bidder must provide a sufficient bank guarantee to meet the economic offer of each of the awarded seasons. Can this bank guarantee be replaced by the provision of a surety insurance that covers these amounts?

No, it cannot be replaced by the provision of a surety insurance, but it is possible to make an advance payment, which would totally or partially reduce the guarantee.
